BUILD FROM A DIFFERENT ANGLE

The ATX 24 Pin 90° Adapter adds a number of possibilities to how users can install the main power connector to their motherboard from the PSU. It makes it so that the 24 Pin main power cable can be installed to the motherboard at a 90° angle, making it so that builders no longer need to wrap/fold the cable up and back over the motherboard to make the connection. This change in angle gives the main power connector more direct access from behind the motherboard, thus reducing the amount of cable needed in front of the motherboard tray.

FEATURES

90° 24 Pin Connection : Connect the 24 Pin main power cable to any motherboard at a 90° angle.

Plug and Play Installation : Easily install the adapter to any motherboard and power supply unit in seconds.

Universal Compatibility : This adapter will work with any standard ATX 24 Pin motherboard slot and PSU cable.

3 Year Warranty : This unit comes with a standard limited 3-year manufacturing warranty from date of purchase.

PACKAGE INFORMATION

Cable Type	EAN	UPC
GL	4719512074732	884102047220

Nett Weight	0.033 kg / 0.073 lb
Gross Weight	0.054 kg / 0.119 lb
Package Dimensions	75 x 57 x 28mm (2.95 x 2.24 x 1.1")
Carton Dimensions	427 x 365 x 248mm (16.81 x 14.37 x 9.76")
Unit / Carton	120 pcs
Carton / Pallet	24 pcs

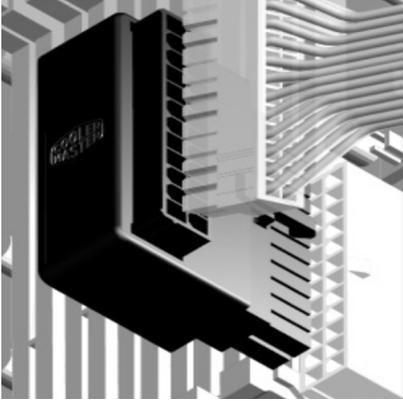

SPECIFICATIONS

Product Name	ATX 24 Pin 90° Adapter
Item Code	CMA-CEMBO0XXBK1
Dimensions (L x W x H)	42 x 57 x 27mm
Color	Black
Material	ABS 94-v0 plastic
